Protecting American businesses from loss in the age of fraud, ransomware & digital extortion
In 2020, efficient protection of assets and services requires navigation through a number of infrastructural, digital, and social domains, across hundreds of corporate and governmental jurisdictions. For modern businesses, every threat – from COVID-themed phishing e-mails, to credential exposures and ransomware attacks – should be properly and preemptively managed to prevent severe financial losses.

TO ADDRESS THESE CHALLENGES, MEET ANDARIEL – A DARKWEB THREAT INTELLIGENCE PLATFORM THAT SHEDS LIGHT ON THE CYBER UNDERGROUND, in order to spot threats and compromises preemptively and proactively. Prolific botnets, ransomware syndicates, cyber extortionists, carders, APTs, crimeware operators, COVID fraudsters – ANDARIEL ENSURES VISIBILITY INTO THESE THREATS BEFORE THEY HARM YOU AND YOUR BUSINESS.

A platform based on Automated Tactical Monitoring Algorithms (ATMA) that leverages machine learning and big data analytics to collect, sort, and visualize risk-relevant information

Andariel transforms botnet and DarkWeb data into efficient risk prevention tools. Our early-warning infrastructure and ATMA-based platform uses machine learning with TensorFlow and big data analytics to collect, sort, and visualize risk-relevant information. This information is then delivered to you in a convenient, visualized format that can advance investigations and mitigate threats.
3-DIMENSIONAL AUGMENTATION

X-DIMENSION

Ransomware & Botnet Prevention

Broaden your view into the most prolific botnets and ransomware gangs. When it comes to top-tier botnets and ransomware syndicates, there is no one else who can deliver such accurate and timely alerts and insights. Andariel offers convenient infrastructural overviews of the most complicated and sophisticated crimeware families. We have unmatched visibility into both ransomware/botnet liaisons and the most prolific financially motivated, malware-focused botnets, which infect tens of thousands of new machines every month.

...there is no one else who can deliver such accurate and timely alerts and insights.
Dive into the DarkWeb ecosystem, and build customized monitoring and alerting capabilities to proactively mitigate threats to your business. Andariel enables alert and search building for proactive identification of crimeware infections. Through our DarkWeb Scan algorithms, you can review thousands of early intelligence sights and warnings to identify DarkWeb chatter, hidden underground auctions, and compromised information. With Andariel, you can always be confident that you know the exact source, timing, and scale of potential or ongoing asset exposure.
ELITE INVESTIGATIVE EXPERTISE FOCUSED ON THREAT MITIGATION, RANSOMWARE NEGOTIATIONS, THREAT ACTOR ENGAGEMENTS, & MALWARE REVERSE ENGINEERING

UNMATCHED VISIBILITY INTO TOP-TIER BOTNETS AND RANSOMWARE SYNDICATES TO PROTECT FROM BREACHES AND RANSOMWARE ATTACKS
Subscribe for daily intelligence reporting to discover the current state of the cybercrime ecosystem. We identify and report on the most prolific breaches such as the notorious FXMSP breach of anti-virus companies, and provide contextual intelligence regarding threat actors that can attempt to compromise your funds. Our SME team provides elaborative analytical comments for any piece of adverse or risk-relevant information pertaining to ransomware syndicates and malware developers. Moreover, you can always request additional intelligence exclusively customized for your case – be it threat actor engagement, malware reverse engineering, or ransomware negotiations.
WHAT YOU GET

• Access to a convenient, custom-tailored, fully automated platform that provides e-mail monitoring and alerting for top-tier DarkWeb threats, such as fraud and credential exposure.

• Access to visualizations and mapping of top-tier botnets and ransomware syndicates, for protection from breaches and ransomware attacks.

• Subscription to daily, weekly, and monthly threat intel insights and RFIs, as well as professional intelligence services such as ransomware negotiations, threat actor engagements, and reverse engineering of malware.

Threat Prevention & Loss Avoidance

ANDARIEL
BY ADVANCED INTELLIGENCE, LLC
WHY ADVINTEL?

We are a team of certified investigators and engineers

Our past experience in the governmental, legal, forensics, and corporate finance sectors allows us to develop the most actionable intelligence tailored to your needs and the needs of your clients.

We stand for privacy

We rely exclusively on datasets collected in accordance with current public and private sector regulations and data collection protocols, such as GDPR. Our investigations are based on a hidden agent approach conducted in strict compliance with the legal, professional, and ethical requirements and standards set by both the government and private sectors, and are often performed in coordination with US law enforcement.

We stand for our communities

AdvIntel's monitoring and intelligence initiatives are inextricably connected to the protection of communities. We have provided immediate ransomware remediation, as well as free intelligence to prevent breaches and extortion aimed at universities, public schools, religious institutions, US Native Tribes authorities, hospitals, and NGOs. Amidst COVID-19, we have established a free alerting and intelligence sharing initiative to inform US healthcare agencies of any ongoing or potential cyber activity which may impact their efforts in fighting the pandemic.
